# More flex, less faff

## Simple mobile that flexes with you

Getting started with Coop Mobile couldn't be easier. Pick up a SIM in store, activate it online, and choose the plan that works best for you. You pay up front for one month at a time, with no long contracts – so you're free to move your plan up or down, or even cancel, whenever it suits you. Just make any changes before your plan renews to get the one you want for the following month.

Want to make sure you're on the right plan? Use the Coop Mobile app to check how much data you've been using over the last few months – it's a great way to "right-size" your plan and only pay for what you really need. To stay connected without the hassle, you can set your plan to auto-renew. We'll take payment automatically each month. Prefer to do it yourself? No problem – just remember to make your payment before your next month begins.

Everything you need to manage your plan and payments is in your Coop Mobile dashboard at [coopmobile.coop/myaccount](https://coopmobile.coop/myaccount)

If you've set up auto-renew and your payment doesn't go through, we'll give you a nudge so you don't miss out. For manual payments, we'll try again after 24 hours if the first attempt fails – just make sure your account has the funds. Once the payment's sorted, you'll be reconnected straight away, and your new month will start from that date.

If you decide to leave, simply cancel your auto-renewal payment. You can also choose to port your number to another provider. If you don't, your Coop Mobile number will be placed into quarantine for 180 days before being recycled.

This Price Guide is effective from the date of publication (see p1). In the event of a difference between this Price Guide and the information published elsewhere, other than the Terms and Conditions for using Coop Mobile, this Price Guide will take precedence. Coop Mobile may modify or discontinue any Plan (including changing the Charges due for it), Booster, Price List or Members Benefits at any time by updating the details on our Website and/or App provided that we will provide you with at least 30 days written notice of any change to Plan Charges or the withdrawal of a Plan. If you are not satisfied with any such changes, you can end this Agreement by disabling the auto-renew of your account on the App.

It’s quick and easy to buy a booster through the Coop Mobile website or app – and you’ll find details of all our add-ons on the next pages.

## Cash boosters for extra flexibility

Our cash boosters are available in £2, £5, and £10 amounts.

They're perfect if you need to:

- Call premium-rate numbers starting with 084 or 087
- Call 05 numbers
- Call Directory Enquiries
- Call or text international numbers
- Use your phone abroad
- Or when your inclusive minutes, texts or data have run out

# Mobile call and data charges

Your monthly plan gives you a bundle of calls, texts, and data. Most of the time, everything you need is covered – but sometimes you might use something that sits outside your plan, such as making premium or international calls or going over your bundle allowance of data.

Don't worry – you can still keep using your service. Just add a **cash booster** to your account, and any out-of-plan use will be charged at the rates shown in the table. It means you're always in control – your plan covers your everyday use, and your cash booster gives you the freedom to pay as you go when you need a little extra.

Don't forget all our plans include unlimited calls and texts to Channel Islands, UK and Republic of Ireland landlines and mobiles when used in the Channel Islands, so you will never need to worry about paying anything additional for these.

### Travelling in the EU & USA

### Travelling outside the EU & USA

Top up with a cash booster and pay as you go for all calls, texts, and data.

### Smart tips for saving while abroad

Use WiFi whenever you can to make calls and send messages through apps like WhatsApp, it's a great way to cut roaming costs.
